WORK EXPERIENCE

IT Intern

February 2026 - May 2026

Innovative Thinker Software Solutions Corporation (ITSS)

- Developed both the front-end and back-end of an NGO web management system as a Full Stack Developer during my IT internship.
- Built and implemented key features for an NGO web system, contributing to its successful deployment and client adoption.
- Collaborated with the development team to deliver a fully functional NGO web system that is currently used by the client.

Full-stack Web Developer

January 2023 - July 2026

Freelance

- Developed small-scale web applications and websites for clients using front-end and back-end technologies.
- Designed responsive and user-friendly interfaces to meet client requirements.
- Collaborated with clients to gather requirements and deliver projects on time.

EDUCATION

Bachelor of Science in Information and Technology

Cavite State University - General Trias Campus

2022 - 2026
